WEATHER SIGNS.

Some Rules That Help in Reading the Clouds and Winds.

The following formulae of weather signs was adopted by the Farmers' club of the American Institute some years ago, and it has been found to give satisfaction:

When the temperature falls suddenly there is a storm forming south of you. When the temperature rises suddenly there is a storm forming north of you. The wind always blows from a region of fair weather toward a point where a storm is forming.

Cirrus clouds always move from a region where a storm is in progress to one of fair weather. Cumulus clouds always come from a region where a storm is forming. When cirrus clouds are moving rapidly from the north or northeast, no matter how cold it is, there will be rain within twenty-four hours. When cirrus clouds are moving rapidly from south or southwest there will be a hailstorm on the morrow, if it be the summer, and if it be in the winter there will be snow.

The wind always blows about a storm in a circle. When it blows from the north the heaviest rain is east of you. If it blows from the south the heaviest rain is west of you. If it blows from the east the heaviest rain is south. The wind never blows even moderately unless rain or snow is falling within a radius of 1,000 miles.

Whenever heavy white frost occurs a storm is forming within 1,000 miles north or northwest of you.—Christian Herald Almanac.

The "Nickel Plate."

The railroad name "Nickel Plate" found its origin in a remark made by Jay Gould. When the road had failed and was placed on sale Gould entered a bid for it. The bid was considered unsatisfactory, and Gould was urged by the interested parties to increase the amount. Though the road had not proved very profitable, it was a splendid piece of construction and worth much more than he had offered. Gould tersely replied that his bid was the maximum and that he wouldn't raise it if the old line was "nickel plated."—Railroad Man's Magazine.

A Northern Vision.

The old city of Ghent, Belgium, is built on twenty-six islands, which are connected with one another by eighty bridges. Three hundred streets and thirty public squares are contained in these islands. Ghent is famous because Charles V. and John o' Gaunt were born there. It has been the scene of many treaties, insurrections and revolts, and it was there the treaty was made terminating the war of 1812 between this country and England.

NEWARK THEATRES

GAYETY THEATRE.

Max Spiegel's song show "The Queen of Bohemia" is underlined for a week's stay at the popular Gayety, commencing with a matinee Monday, May 13. This organization boasts of a set of musical numbers that will not be heard with any other organization.

The Countess Rossi (she of Russian birth) essays the role of "The Queen of Bohemia." Mr. Sam Sidman, America's foremost German comedian, and Charles Drew, a newer recruit to burlesque, are the principal comedians. Both are ably assisted by that odd eccentric rube, George Hayes. The performance is given in two acts. The scene of the first is laid in the Rathskeller of the famous Black Cat. Here one is shown a touch of Bohemian life after midnight. The second act takes one up the Hudson, or back to the simple life. The comedy is of the clean type and the chorus is said to be above the average. Sunday night—Executive staff benefit. May 20—Pictures and vaudeville for the summer season.

MINER'S THEATRE.

"The Lady Buccaneers," one of the Empire circuit's best attractions, and an organization which made a tremendous hit here last season, will open at Miner's Theatre on Monday afternoon next for a week's engagement. A two-act musical comedy entitled "A Million for a Nose" will be presented. Among the top-notch vaudeville promised are: The Marvelous Lansings, an imported novelty act; Grace Whitman, dainty singer; Weissner and Hunters, singers and dancers and, as a special feature, Young Creator's concert band of twenty soloists, who will positively appear at each performance. Short story writers will be given a chance Tuesday evening; George Bothner will put on two snappy wrestling bouts on Wednesday evening and "Those Amateurs" will appear, as usual, Friday evening. Next week, "Miner's Bohemians."

PROCTOR'S THEATRE.

Proctor's Park Place Theatre announces for the last week of the vaudeville season an all-star bill of headliners. The theatre will be festooned with wreaths, new scenery will be provided, souvenirs will be distributed and an augmented orchestra will assist the artists.

Belle Hathaway and her Simian Playmates will appear and give real pleasure to the kiddies as well as the grown-ups; Laura Buckley will follow with her protean entertainment entitled "Studies from Life." Next will come the English Pony Ballet, a sextette of stylish stepsisters and then Hilda Hawthorn, the world's leading woman ventriloquist, with her almost human dummy "Joannie." Those petite charmeses, Catharine Hayes and Sabel Johnson (combined weight 500 pounds) will give their quaint conceit, "A Dream of Baby Days"; Miss Bessie Wynn, "The Venus with the Velvet Voice," will render her latest song hits and show as many gowns; the Great Kaufman Troupe, the world's renowned girl cyclists, who have delighted with their skill, daring and beauty, will next hold forth, and Kate Watson, "The Sis Hopkins Girl," will endeavor to please. Last will come the original Clovelly Sisters, a quartette of club jugglers, direct from Berlin, to be followed by "The Lady Police," the funniest moving picture film ever shown.

Eden Musee.

Everything is looking bright and up to date at this famous New York institution, this being the season of the year when the patronage of out-of-town visitors is looked for. New groups in the lobby, changes in the entrance hall and additions in the concert hall and winter garden are under way. The life-like figure of the late Captain Smith of the ill-fated Titanic is surrounded by interested visitors daily. The figures of Mayor Gaynor and Governor Dix are also attractive to out-of-town visitors. New subjects from Europe are shown daily on the mammoth cinematograph de Luxe in the winter garden. Concerts are given afternoon and evening by the Contorno Ladies' Sextette, together with other attractions. The world in wax is the most refined, instructive, and entertaining attraction offered in New York, and no stranger in the city should return home without having paid a visit to the Eden Musee.

The Butts Memorial.

The memorial exercises in honor of the late Major A. W. Butt, the President's aide, who was a victim in the Titanic disaster, held in Washington on Sunday, brought together the most distinguished company ever assembled in the capital city of the nation. The exercises were held under the auspices of a local lodge of Ancient Free and Accepted Masons, of which "Archie" Butt was a member and who lived the principles of Masonry every day in the year. The exercises were profoundly impressive, the President finding it difficult to speak of the sterling qualities of his aide, who had grown to be more like a son to him than a military attaché.

The Demons of the Swamp are mosquitoes. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fever. The appetite fails and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell of Lucania, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50c at all druggists.—Adv.
